

MS SPAR

PRODUCT FEATURES

- Idler for 60° or 70° troughing angles. Equipped with 5 rollers and SPAR 1 EX nip guard.
- Most models can accommodate a hood with or without seals. This shields materials from weather conditions and prevents workers from accidentally leaning on the belt.
- Hood design provides unobstructed view of idlers, facilitating maintenance.
- Offered for belt widths ranging from **650 to 1200mm** (24 to 48 in. North American standards also available. Contact us for other belt widths).

DEEP TROUGH IDLER

- The **MS SPAR** is a new concept that offers gains in **security and productivity**.
- It's ideal for both new installations and retrofits.
- The **MS SPAR** can be equipped with a hood and sealing system.

Conveyors retrofitted with the **MS SPAR** can **carry more tonnage** while using the **same belt width** as before.
