

SPAR 2

PRODUCT FEATURES

- The **SPAR 2** is located just before the point where the belt comes into contact with the head pulley.
- Made of two rigid polyurethane foam blocks that **automatically adjust** to the shape of the belt.
- Designed to provide **long-lasting protection** if properly installed (consult the installation guide for more details).
- The **SPAR 2** can accommodate belts from **650 to 1200mm** wide.

HEAD PULLEY NIP GUARD

- The perfect solution for **preventing serious accidents** at the head pulley.
- The **safety device of choice** for all belt conveyors.

The **SPAR 2** can be adjusted to the size of the conveyor head by following the instructions in the installation guide.

A version of the **SPAR 2** designed to **protect snub pulleys** is available.

No need to remove the SPAR 2 to carry out conveyor **maintenance**.
