

# SPARET EX

## PRODUCT FEATURES

- The **SPARET EX** consists of Polyspar bars attached to brackets.
- The main advantages of the **SPARET EX** are : **no moving parts, good sliding properties, low wear and easy maintenance.**
- The **SPARET EX** can be adapted to any belt configuration ranging from a flat belt to a 75° trough.

## LOADING POINT

- The new **SPARET EX** loading point is made of Polyspar sliding bars fitted on brackets.
- Designed to **replace rollers directly under transfer points.**

The **SPARET EX** fits easily on new conveyor frames and retrofits.

Good loading point sealing in tough configuration.

Able to handle material sizes of **100mm or less.**

For larger material sizes, the **SPARMAT** is recommended.

**R. BRUNONE**
